

@Sree Vishnu Varthini

Day -1

Embedded Systems Programming

OHM'S LAW

$$\mathbf{V = I R}$$

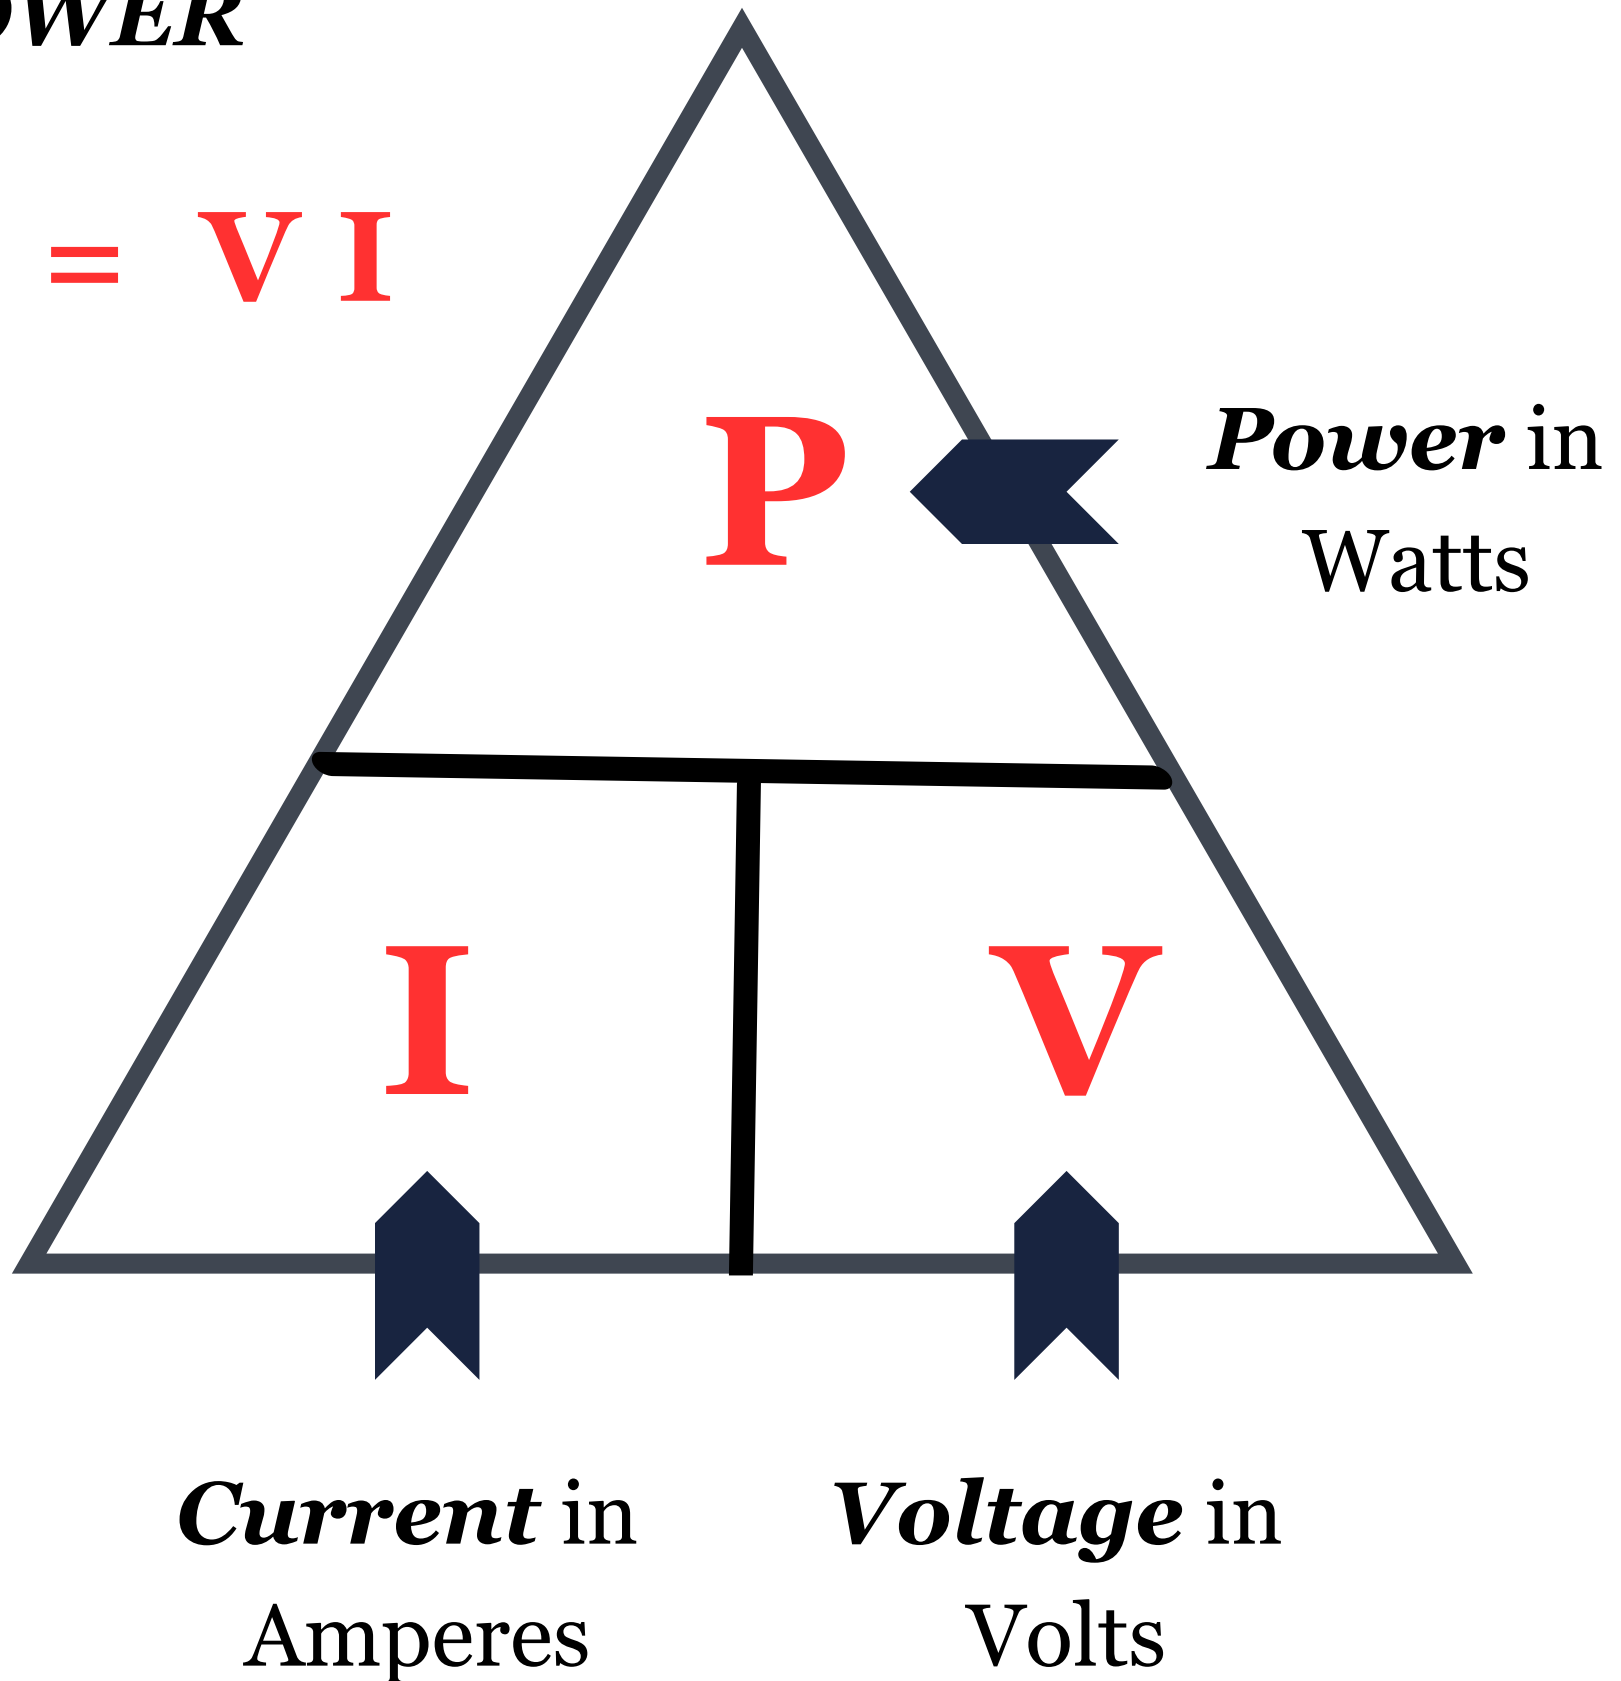

V --> ***Voltage*** in Volts (**Generation**)

I --> ***Current*** in Amperes
(**Transmission**)

R --> ***Resistance*** in Ohms (**Utilization**)

POWER

$$P = VI$$

@Sree Vishnu Varthini

***Was it
helpful?
follow for more!***

P.S. You can access the **Embedded Systems Programming** course by contacting **Balajee Seshadri** Sir through the WhatsApp number provided on his profile.
